There is a song that makes us feel excited and sad. Music is still present in our lives in many forms, especially games. Some of the music games you mention are Osu!... You can only enjoy the game while listening to songs that you like. Here, I want to send you a very interesting mobile game in music that is Piano Tiles 2. SuperFirst, referring to Cheetah Games players is quite impressive with their products being released a lot on Google Play. Most of them are regular games with easy gameplay, and the operating system of the game is very simple. On the contrary, that has become the biggest weakness of this publishing house. They don't have significant breakthroughs like Piano Tiles. So it remains their most successful product to date. Part 2 of it is also a must come naturally. But in general, they do the best they can. Therefore, this product still meets the maximum requirements that Play offers both in terms of play and graphics. They retain their identity and offer new improvements to make the process of playing smoother. #1 in Music Games About the game, after the success of Piano Tiles, they will come Brick Piano Version 2. Like the older one, the game rules are simple. You'll select your favorite songs and then click on the black boxes that are constantly falling from the top of the screen. One screen will have 4 lanes; Black notes will drop randomly there. Make sure you can't ignore any black boxes so the game will require quite a lot of skill in the match. Because it simulates the Piano keyboard, some of you may have mistakenly pressed the white key while playing the game. But that's wrong; The player must touch the black button, not for the white button because it makes you lose. Adding 10000 soundtracks This makes you focus on one object, so it's less likely to make mistakes during gameplay (because of the perfect black contrast to the game's graphics). In addition, the game has a large number of songs (from ancient songs to popular singers today), so you can find some songs you like and play it in this game. But you have to use money or diamonds to unlock the song. And you should know that the more famous songs like Alan Walker, the more money they have, the more money they have to buy from the game's specific store. Therefore, you should consider carefully before buying offline. And music is always on the go, so producers are always focused on bringing the best experience to players by updating all the songs on the market today. For game information, it is designed very eye-catching and lightweight. The game does not require too much device configuration nor too wide memory to store redirects so that any player can install and experience. Because the higher the speed, the faster and harder to play, so the game requires high accuracy as well as attention from players. In addition, in some high-end games, there will be more gold notes (also the currency of the game used to unlock the song). They will appear randomly and distract the player quite a lot. If you are too greedy or your fingers are not fast enough, you will surely lose the reason for this many times. The game can be played offline and does not need the Internet so that players can play the game anywhere and at any time to kill time or reduce stress. The article has shown you the joy of this game. This game will keep you entertained well after stressful working hours. Moreover, just play the game and listen to the music you like. Set up games to experience exciting moments and score the highest scores. Now you are ready to download Piano Tiles 2 for free. Here are some notes: Please check our installation instructions. Download game Piano Tiles apk Download Size 71 MB Update November 26, 2019 Download APK File [Original] v3.1.0.1057 Download APK File [Mod] v3.1.0.1033 Download APK File [Mega Mod] v3.1.0.1054 In addition to Piano Tiles 2 apk mod, in apkpure, users can also download Piano Tiles 1 as well as download Piano Tiles 3 because there are also all versions of this very interesting game. Gameplay in Piano Tiles Piano Tiles 2 has simple and intuitive gameplay. To play, users need to touch their smartphone screen when a black block is displayed at the bottom of the screen when the song starts playing, but it's not recommended to record a blank tile. With gameplay like this, piano tiles can be a pretty addictive game. No need to worry, for the first time users, you can follow the instructions provided. Users will be invited to play Little Star music which is quite easy to play. But like other arcade games, the higher the level you've achieved, the greater the challenge. Even so, if users are very accustomed to playing piano games even on a regular basis, then raising is not impossible. Over time, users become aware of how basic this piano game is. Users can track the rhythm provided even at difficult levels with fast tones. How to play Piano Tiles Game Version 2 Above was mentioned at a glance about how to play this game. But for more details will be discussed through the following information. So users will also feel that they understand how to play it and do not feel embarrassed at all. Playing Piano Tiles is pretty easy, it's just touching the box or block that appears. When the black block is touched, the piano plays. If a tap outside the black block, then the points will be reduced and the user will be reduced his chance to rise to the highest rank. The higher the successfully completed level, the more songs you have. A total of three new songs will gain each of an increased level. Players can also collect points and diamonds that you can use to buy locked tracks. To be able to complete each level, the key is concentration. Each level rises, blocks black seems to be moving faster. In addition to concentration, finger movement must also be quick so that no black mass is ignored to touch and leads to a decrease in points. How, it seems interesting, right? If you're interested in playing it, download Piano Tiles 2 now and get excited! Also read : :
